

List of Vendors who Report Available Supplies of N95 Disposable Respirators

October 5, 2020

To assist employers in identifying available supply, Cal/OSHA is maintaining a list of vendors who have represented they have at least 100,000 NIOSH-certified disposable N95 respirators in stock and available for delivery. Inclusion on this list is not an endorsement of the listed business nor is it a warranty of the quality or authenticity of the product or a guarantee of availability. Purchasers should use due diligence in making procurements. This list is non-exhaustive and is current as of September 17, 2020. Vendors on the list may have supplies run low periodically. The links on this page go to websites outside of DOSH and should not be considered an endorsement of their content, or as a statement of DOSH policy.

State and some local governments are procuring respirators for essential industries such as agriculture and construction that may be available through local **Medical Health Operational Area Coordination (MHOAC)** programs.

Vendors who wish to be included on this list must have at least 100,000 NIOSH-certified disposable N95 respirators currently available for purchase and delivery.

NOTE: Some vendors may limit the total number of N95 respirators that can be sold during a single purchase.

Vendors who wish to be included on the list may contact Eric Berg at EBerg@dir.ca.gov.
